

Press the **[MENU]** button on the remote control.

You will see (1. **Add MSG**). Once you see this, press **[ENTER]** on the remote control.

Now you will see (1. **New MSG**) press **[ENTER]**

Now you will see (1. **Single line**) press **[ENTER]**

“**INPUT YOUR MESSAGE**” will scroll across the screen. A **Blinking Cursor** will appear on the **left side** of the screen, which indicates the sign is ready for you to input your gas price.

**Only** Type in the first number of your gas price. *(Default color is RED with GREEN outline)*

Once you Type in the “**first number**”, move the cursor (**blinking line**) to the left of that character with the left arrow / speed button. *(Blinking light in front of the first number)*

Once the cursor (**blinking line**) is in front of the first number, Press the **[OUTLINE]** button **1-time** to remove the Green Outline. *(You can cycle through the outline options for other outline colors.)*

This will leave you with a solid “**RED number**.” To change the color from **RED to GREEN** press the **[COLOR]** button **1-time**. *(You can cycle through the color options for other colors.)*

Now you can continue to insert your gas price. **For the decimal point symbol** (Press **[FN]** button one time then press **[K]** button for the point symbol, press **[FN]** again to return to the number characters).

Continue to insert your gas price. **To insert a 9/10 symbol**, press **[ICON]** button, then scroll right with the speed button to choose the correct color and then press **[ENTER]** to insert 9/10 symbol.

To maximize display area press the **[STRETCH]** button.

Press **[ENTER]**, *Select a start effect will scroll across*. Now you will see (1. 3D).

Scroll down to **(4. Gas Price)**, press **[ENTER]** sign will then **scroll complete**.

Sign will return to **(1. Add MSG)** press **[ESC]** button to exit and **review your message**.
