

Touch Screen Computer Kiosk
Installation Instruction Manual

Installation Diagram for Touch Screen Kiosk

1. Prepare a piece of foam board or soft surface, to pad the machine body.

2. Lay the kiosk on the foam board.

3. Take out the base and place it on the bottom of the body.

4. Put the screws into the screw holes of the base.

5. Tighten the screws with the provided hex wrench.

6. Erect the kiosk to complete the installation.
